The Dread Disease upon the Decline Again-Board of Health Reports-New Cases, Five Whites and Two Colored - Deaths Yesterday, Two Whites. One of them Outside the City.

The fever reports for yesterday are of a most favorable character, the new cases being seven, including two colored persons, and the deaths but two, one outside the city limits. These reports are encouraging, and give us reason to hope that the plague is about to wind up and leave us for the season, which is a consummation devoutly to be wished by all classes of our citizens, both at me and abroad.

Rosenberg's Apology for his Slander of Mrs. Langtry-Parnell to Come to America to "Organize the Irish Vote"—Eastern News.

New York, October 15.—A dispatch from London says that Adolph Rosenberg, editor and publisher of Town Talk, arrested on the charge of libel, preferred against him by Mrs. Langtry and also by Mrs. Cornwallis West, Langtry and also by Mrs. Cornwallis West, appeared this morning in the Guild hall police court. He looked very dejected. He had been unable to obtain bondsmen for two thousand pounds. The attendance was very large. Preliminaries disposed of, the prisoner made an abject apology, regretting that he should indirectly have been the cause of annoyance to the estimable ladies. He pleaded ignorance of the writing in question about Mrs. Langtry's divorce and gave the name of the man who had written the paragraphs. He went on to state that he had employed a detective to search the diverce records, and it was undoubtedly on the detective's report that the allusion to the petition had been printed. He denied that there was any malice, the supposed facts being given as bona fide news. In reply to a question made to the prisoner as to the terms of payment existing between him and the writer of the paragraph concerning Mrs. Langtry's divorce, he replied that the question of payment existing between him and the writer of the paragraph concerning Mrs. Langtry's divorce, he replied that the question of payment existing between him and the writer of the paragraph concerning Mrs. Langtry's divorce, he replied that the question of payment existing between him and the writer of the paragraph concerning Mrs. Langtry's divorce, he replied that the question of payment was to have been settled when the writer wrote out his short-hand notes of the divorce petition to Sir James tion of payment was to have been settled when the writer wrote out his short-hand notes of the diverce petition to Sir James Hanen. Rosenberg then made another abject apology to both ladies and their families, and begged the court to reduce his bail, as he was suffering from illness and great mental depression. Mentagne Williams, in sarcastic terms, protested against the reduction of Rosenberg's bail. He rebearsed the prisoner's cowardly, cruel and wanton attacks on his client, and concluded by saying that he thought the atmosphere of Newgate would be most salubrious for the prisoner, and Surgeon Gibson, of that place, would give every requisite consideration in his case. His remarks produced loud laughter in the court. The prisoner was then committed for trial, he prisoner was then committed for trial, The prisoner was then committed for trial, his ball remaining the same as before.

Too Much Oil. A special dispatch from Bradford, Penn-sylvania, says: "At a moderate estimate there are one hundred and fifty gallons of oil running to waste every day in the M'Kean county oil regions. The tanks, with capacity for sev-eral million barrels, are filled to overflowing. The market is overstocked, and still produc-tion goes on at the rate of twenty-five thousand barrels a day—five thousand more than the pipe lines can handle. New wells are going down in all parts of the region. The price of oil is from twenty-five to thirty cents ess per barrel than the cost of production. The United and Tidewater pipe-lines have iron tankage for three million barrels of oil in this district. Individual producers and oil companies own tankage connected with these The pipe-lines take care of the oil of these tank-owners to the extent of their ca-pacity. It is the small producers who are losing the bulk of the oil. They cannot af-ford to build tanks. What is known as the general storage capacity of the pipe-lines is proportioned out to these producers, out that tankage has been occupied for fire daily. Thus a large quantity of the waste oil is disposed of. It is not uncommon for fire to be communicated to these combustible rivers, by sparks from locomotives. Sometimes they are fired by malicious persons and tramps. Derricks and other property have been destroyed by these unexpected fires, resulting in losses of thousands of collars. All efforts to limit the production of oil and stop this great waste have failed. Some years ago the same state of affairs existed in the lower oil region. Rivers of oil stopped the drill."

BRIGHAM'S PROPERTY.

Compromise of Emeline A. Young' Suit Against the Executors Beventy-Five Thousand Dollars to the Plaintiffs,

Salt Lake Herald: "All of the difficulties arising out of the estate of the late Brigham Young have been adjusted, and the matter will now drop forever, so far as the courts are concerned, at laest. It became evident to all parties concerned that a compromise would be a far better way of terminating the legal differences, and with this spirit negotiations happy results here mentioned. Everything has been ready for final adjustment for some tome past, but owing to side issues the matter was postponed, and it was fully expected that the work would be accomplished on Friday; the court sat in that expection, but minor de-tails had not all been disposed of, and so the matter was left over until yesterday morning, at nine o'clock, when all interested being in in court, a final settlement was arrived at and a decree entered by the court. By this the seven heirs receive the sum of seventy-five thousand dollars, to be divided among them. The suit of the church against the heirs and the executors are considered. cost, and thus it is that the entire matter is altogether out of the courts. The receivers have been discharged and guardians appointed for the minor heirs, who are Mark Croxall, Mrs. Mary V. Young, Alexander C. Piper, H. B. Clawson, Phineas H. Young, and Alonzo Young. The accounts of the executors are approved, and such new accounts as may be made and business that may be transacted will date from to-day. The sum paid may seem large, but it is not larger than the plaintiff heirs, through their consecuency and the power to demand and and any counsel, had the power to demand and en-force payment of. Under all the circum-stances the settlement has been upon as favorable terms to the defending parties as acquitted and exonerated from all accusations of wrong-doing in the administration of the estate, but their acts up to the beginning of the suit are confirmed and made forever valid. The decree runs against both the seven plaintiffs and the other heirs of the estate, who are forever barred of, and from all rights, remedies, or causes of action as to all the matters and things alleged or disclosed

INDEPENDENCE, Mo., October 14.—Two desperadoes, Stevens and Campbell by name, were arrested at Holden late last night on were arrested at Holden late last night on suspicion of being members of the gang who robbed the Chica, o and Alton express train at Giendale last Wednesday night. They belong in the neighborhood of Holden, and for a day or two previous to the robbery had been absent. Returning two days after the robbery with considerable money, they were at once suspected, and, after being "piped" two or three days by Detective Leverton, they confirmed the suspicion of their complicity in the affair, and last night Deputy-Marshal Hayes and a posse went down from Kansas City and took them in. Both were found at houses of ill-fame, Stevens is one and Campbell at a house some distance away. Stevens's bell at a house some distance away. Stevens's house was surrounded about half-past one o'clock in the morning. Mrs. Stevens, when she learned the object of the visit, became furious, and, arming herself with revolvers, kept the officers at bay for over an hour, and came near killing several of them. She was finally overpowered, and her husband captured and put in irons. The place where Campbell was stopping was next surrounded, and he treated in the same manner. The men were taken to Kansas City and placed in the county jail this afternoon. Since their arrest both have been very reticent. Such a clumsy disguise and explanation is entirely unnecessary, and is in bad taste where a performer has the right to bear a name so ored on the American stage as that of Davenport. Because an American girl goes abroad and learns to warble a little in a foreign Returns now indicate that the Republicans have twenty-two senators and the Democrats fifteen; in the lower house, the Republicans have seventy members and the Democrats in frightfully swollen—the blood fairly bursting from the veins. Such a course from a bull-dog is not surprising, but the following given us by Mr. George Harrison, of Poinsett county, is something aside from the usual line of animal ferocity: Several mornings ago a boy, about fitteen years old, a nephew of Mr. Harrison, an inmate of his family, went out to the barn to feed the horses. Life Association Enjoined. ST. Louis, October 14.-Judge Adams, of St. Louis, October 14.—Judge Adams, of the circuit court, this afternoon, on petition of William S. Relfe, State superintendent of insurance, granted a temporary injunction against the Life association of America, restraining it from further business, and appointed General D. M. Frost temporary receiver, who filed bond and took possession of the company's office this evening. Argument on the application for a perpetual injunction on the application for a perpetual injunction will be heard Friday. Superintendent Relfe states in his petition that the Life association is insolvent, its liabilities exceeding its assets by a large sum.

And Limbs. Obliged to go About on Crutches. A Wonderful Care.

Messes, Weeks & Potter—Gentlemen: In justice to those who may suffer as I have suffered, and as a grateful acknowledgement of the cure I have received from the use of the Cuticura Remadies, I voluntarily make the following statement:

I have had Salt Rheum on my body and on one leg in a very aggravated form for eight years. No kind of treatment, or medicine, or doctors, during this time, did me any permanent good. My friends in Malden and elsewhere, know that I have been a great sufferer, and that my condition at times has been such as to make me despair of ever being able to find a cure, or even a relief. In fact, when I began the use of Cuticura, my limb was so raw and tender that I could not bear my weight on it without the skin casking and bleeding, and was obliged to go about on crutches I commessed to use Cuticura in April, and at once realized its beneficial effects. It gradually drew the inflammation and humor to the surface and, as fast as it appeared, healed it. At times large quantities would come to the surface, causing burning heat, inflammation swelling and itching, which, under the constant use of Cuticura, would rapidly subside and heal. Each time these outbreaks grew less and less severe, and finally disappeared, leaving me perfectly cured. I used the Cuticura five months and took the Resolvent most of the time, which were the only remedies I used. I think the Resolvent a very strengthening and purifying medicine to take in such extreme cases as mine, because the disease is so weakening to the system. Very gratefully yours.

ECZEMA OF THE HANDS

Cured. Interesting Letter from a Well-known Attorney. EDITOR NEW ORLEANS PICATURE—Sir: Since the the fall of 1887, up to the last three weeks, I have been troubled with an eruption of the sain, which the doctors call by various names, but which is generally known by the name of Eczema or Sal. Rheum. The principal place of attack was my hands, which, at times, especially during the winter time, were very sore. at times, especially during the winter time, were very sore.

At times the disease threatened to spread from my hands and envelop my whole body. Doctors have been consulted in Philadelphia, Washington, and in this city, with no more success than a temporary relief. After considerable expense, and much pain and suffering, I had come to the conclusion that I would, as the saying goes, have to grin and bear it. About four weeks ago I read in the Picayune the advertisement of Culicuru, for sale by our well-known druggist, Mr. Ly.ns, and resolved to try it. I purchased a fifty-cent box, and before it was naif used the Isease had completely disappeared, and I feel certain that mine is a permanent cure.

My object in sending you this letter is to make known to other sufferers the value of Culicuru, and thus benefit, if ever so little, suffering humanity.

Yours truly,

Attorney and Counselor-at-Law.
